-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

A Preliminary Amendment filed September 24, 2003 is acknowledged. Claims 1-40, 42, 43, 52 and 53 are canceled. Claims 41 and 44-51 remain under consideration.

Information Disclosure Statements filed September 23, 2003, August 30, 2004 and September 10, 2004 are further acknowledged. The references have been reviewed to the extent each is a proper citation on a U.S. Patent.

An Amendment filed September 24, 2003 under 37 CFR 1.48(b) to delete those originally named inventors, who are not the inventors of the invention now being claimed, and the required fee is further acknowledged.

The abstract of the disclosure is objected to because the present claims are specifically drawn to methods of treating fibromyalgia and other somatoform disorders. There are no composition claims. Correction is required. See MPEP § 608.01(b).

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 41 and 44-51 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of U.S.

Patent No. 6,610,690. Although the conflicting claims are not identical, they are not

Art Unit: 1614

patentably distinct from each other because the subject matter of the claims of the patent encompasses that of the instant claims.

Claims 41 and 44-51 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

The metes and bounds of "and other somatoform disorders" cannot be precisely determined. The specification provides no clear definition, only examples. Applicants should recite those disorders contemplated.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 41 and 44-49 are rejected under 35 U.S.C. 102(b) as being anticipated by Burrows et al., J. Clin. Psych.

Burrows teaches the administration of racemic reboxetine to treat dysthymia, a chronic disturbance of mood characterized by recurrent periods of depression, insomnia and pessimism. Dysthymia may be considered a somatoform disorder in that there is no organic basis or known physical cause. See page 5, column one, where oral dosages as those required by instant claims 44-49 are disclosed.

No claim is allowed.
